

Profitable Vending... Simplified

New 3-Shelf Model
All the quality... with a smaller
footprint and price!

*Durable, secure, and easy to install... The **Vend-It™** is a profitable service addition to a variety of business models. Only the **Vend-It** uses a patented (No. 6,994,230) rear load design, and coin pulse technology! With its high security construction, the **Vend-It** delivers maximum profits, performance and security for your business.*

Profitable Vending... *Simplified*

Rough wall opening dimensions: 32" W x 40" H

- **Durable, secure, and easy to install... The Vend-It™ is a painless and profitable service addition to a variety of business models**

- Uses standard coin-pulse coin acceptor and bill acceptor (Sensortron™ and Mars AE2412 are standard)
- Not a modified snack vendor

- **Customer Friendly**

- Makes Change
- Motor fault prompts customer to make a different selection
- Factory ExpressKEY® cashless system available or easily retrofitted

- **Easy to set up and Flexible**

- Fully and truly rear serviceable (Patent No. 6,994,230)
- Per item pricing
- Completely operator configurable – no tools required
 - Vend up to 24 items from the 3 shelves
 - Mix and match motor position and/or type (single or dual drive) in any configuration you desire
 - Machine controller automatically senses the location of each motor and reconfigures itself

- **Easy to maintain**

- Walk-by fault indicator
- Low coin level in hopper
- Bill validator out of service
- Motor fault
- Provides individual testing of the coin mechanism, coin hopper and each motor (individually, by row, all)

- **Designed to maximize and safeguard profits**

- Full data logging gives accountability
 - Total deposited
 - Bills deposited by denomination
 - Coins deposited
 - Quantity of items vended

- **Built to last**

- NEMA-4 waterproof enclosure for the display and input keypad
- Remotely mounted machine controller

- **Best Security**

- Standard Security
 - Door constructed of 12-gauge powder coated steel
 - 3/8" thick Lexan® layer with 1/4" thick Lexan layer in front to allow inexpensive scratch replacement
- Enhanced Security
 - Door constructed of 12-gauge stainless steel
 - 1/2" thick Lexan layer with 1/4" thick Lexan layer in front to allow inexpensive scratch replacement

- **Easy to Retrofit**

- Replace a Vend-Master® by simply removing one more course of block

- **Designed to minimize installation costs**

- Rear door is easily reversible (like a refrigerator door)
- Designed to be installed by two people without heavy equipment

*Production specifications subject to change without notice.
